Artistic rugs that brighten every room, save work and money—

MORE than 200 years ago, an attractive home, even housekeeping—there are the attributes of every up-to-date woman.

And the Gold Seal, earned on the floor of every Gold Seal Art-Rug, is proof again to the recognition of these attributes. For it identifies floor-covering which through centuries' wear is the choice of modern Canadian women. The Gold Seal also identifies "Canadian-made" and "Buy Home Back."

Housework Made Easy

Congoleum Rugs have a smooth surface that is kept clean and spotless with the least effort. There's no place for dirt and grime to lodge. A light mopping, and they are as bright as new—no dusting or beating or mopping.

Resistant to staining whatever, Congoleum Art-Rugs can be rolled up at

moving time and then unrolled on the floor in the new house—no losses at all.

Appropriate Rugs for Every Room

Do you know that every Congoleum Rug is designed by a famous artist? That's why they are called Art-Rugs. You can choose from gorgeous Oriental, floral, busy floral effects, abstract, conventional designs—appropriate patterns for living and dining rooms, bedrooms, kitchen and pantry.

Congoleum Rugs are made in sizes up to 12' x 18'. And all we promise that are reasonably low. Your dealer will gladly show you the convenience of these beautiful, practical rugs.

Send for free pattern slides to color the rug you desire.

GOODYEAR

A business policy in tune with the times

Time was when manufacturers used little when it happened in their plants after they were sold. But now change and business about experts. After years ago Goodyear announced a policy which is more than several nations and industries. It was here then, in that early day, but it has found its business need of Goodyear ever since. Here is it.

"To build the best possible rubber products for the world so that the user will get the most of these products at all the available times."

GOODYEAR has always recognized that nations of this world are needed each year because they are not properly used and used for years ago Goodyear set about to use these lessons for its customers.

A start was made in building up a dealer organization trained to help users get from Goodyear. Then all the modern trade laws there at the factory. This service involves a thorough knowledge of time and the operating conditions.

It calls for intelligent recommendations of the proper size and type of tire for car, truck, and load. It requires knowledge of proper inflation, and the facilities for providing it.

It means that the dealer must rightly apply time, clearing out from time to time. Experts and others will not be automatically injured.

The user is able to see where for alignment, for a wheel out of his rapidly grows all roads.

His user is able frequently to witness time for time, and more experts, in that every expert can be made and the user's demand for products.

SO Goodyear dealers, whom five of all the their customers to serve, have agreed to render their services to their customers.

Naturally, at first many did not agree with this policy.

They noticed it meant the use of fewer tires.

But Goodyear has always preferred to sell fewer tires in more customers than more tires to a few customers.

And as the world has grown. And for many years, Goodyear has been engaged in a tireless effort.

First—a better tire time.

Second—to develop better service through dealers as that were would get all the other out of their time.

HAS the first effort succeeded? Well Goodyear. Time today gets into all the tires the other day they did when the policy was introduced.

Was the second effort better built? Many of the largest dealers in the world have selected under the Goodyear banner and have adopted Goodyear principles.

Many and steadily more our users are enjoying the benefits and savings of Goodyear quality and Goodyear service, and more when most people are a source of enjoyment in that respect is made fitting to all of the Goodyear effort and its aim.

That it has been an effective and helpful effort is seen in the fact that today "most people ride on Goodyear Tires time on any other kind."

There is a Goodyear Selected Dealer near you. Look for the Goodyear Selected Dealer sign—symbol of Goodyear policy.

For the Perfectly Appointed Breakfast Table

CLEANING makes the life of a woman—the clean of single days. What is she doing for the future? The answer—the house that is a home in a home.

The beauty of a well-appointed table is a matter of the mind and the eye. The mind, the eye and the hand, the hand and the eye. The eye of the hand and the hand of the eye.

Another woman of the future family which desires a place at your table is the future of the future. It is not a matter of the mind and the eye. It is a matter of the mind and the eye.

WHY

Firestone

TIRES ARE BETTER

In the manufacture of tires of Firestone quality, highest grades of raw materials are expensive.

The same high purpose that characterizes the organization at Hamilton, Ont. and at Akron—the same thoroughness and loyalty to the Firestone plant of service—are found in the far places of the world where Firestone men go to obtain the best quality and value that the raw material markets afford.

A buying organization, with one separate office located in the principal rubber growing centers of the British and Dutch Colonies, enables Firestone to obtain the highest grade of rubber and insure an adequate supply by purchasing at the source of production. In the most modern plant in the Far East, located at Singapore, Firestone washes, refines, makes final rigid inspection and packs its rubber for shipment to the Firestone factories

at Hamilton, Ontario, Akron, Ohio and Hudson, Massachusetts.

Only the best grades of long staple cotton from Egypt and the United States are able to pass the registered Firestone buying standards—recognized as the main standard in the trade. Here again Firestone has provided for protection of quality by the ownership and operation of the Firestone Cotton Mills, located at Felt River, Massachusetts. Special Firestone processes and methods of manufacture insure cord fabric of uniformly high quality and tensile strength.

Back of ample resources, special facilities for obtaining raw materials, greater manufacturing efficiency and more economical distribution is the wholehearted assistance of the entire Firestone organization, including its dealers, to give our owners a quality and value that can be found nowhere else.
